

# SAINT SEBASTIAN

---

GREG GOEBELT

Saint Sebastian is a band created and fronted by songwriter and vocalist Greg Goebelt. Saint Sebastian's debut album, *Melancholy Breakdown*, is produced by songwriter and guitarist, Bret Levick. Greg's music has a distinct and identifiable sound with strong melodic hooks that stick to your musical memory. Although the theme could be described as "melancholic," the music is firmly in the alternative rock genre. The electric guitars are crunchy but warm and drive steady, clean melodies supported by strong drum tracks by Shay Godwin. Goebelt's buoyant voice and stylized lyrics ride the songs like a cross between Brian Ferry and Peter Murphy. The bridges have a hint of early 60's psychedelic pop with an overall nod to the 80's and 90's. Saint Sebastian is unique but familiar, diverse but accessible, and it brings you back to a time when "alternative" truly stood out from the rest.
